GEORGIA DOT CONTINUES PLACEMENT OF REFLECTIVE RAISED PAVEMENT MARKERS ON HIGHWAYS 60 AND 60 SPUR IN FANNIN COUNTY

WHAT As weather permits, Georgia DOT Maintenance crews continue today through Friday to replace the obliterated and damaged reflective raised pavement markers on State Route (SR) 60 and 60 Spur in Fannin County. Work proceeds daily between the hours of 7:30 a.m. and 5:30 p.m., as weather permits.

Georgia DOT maintains over 2000 lane-miles in Northwest Georgia. This year's relatively harsh winter and snowplows used to clear the region's interstates and state routes from snow and ice present a summer challenge to the DOT crews who are charged with maintaining lane markers on the roads. These crews follow Federal Highway Administration standards for markings and do their best to keep up. They also work almost continuously restriping faded markers and replacing missing reflective raised pavement markers. Still, the volume of traffic on the highways, snow removal in the winter and sunny summer all weigh heavily on the durability of the lane markers.

WHEN: Tuesday, August 25 through Friday, August 28, 2015 from 7:30 a.m. until 5:30 p.m.

WHERE: SR 60 and SR 60 Spur in Fannin County

DriveAlert ArriveAlive calls attention to an alarming increase in roadway fatalities across Georgia, many resulting from preventable crashes and distracted driving. *DriveAlert ArriveAlive* implores motorists to buckle up; stay off the phone and no texting; and drive alert.
